

VACUUM SKIN PACK

Vacuum Skin Packaging film (VSP) showcases products, like chilled proteins or prepared meals, in stunningly unique, puncture-resistant, 3-D clarity. LK's SimplyFresh™ VSP offers unmatched interoperability and clarity, while locking in flavor for up to 50% more shelf life.

SimplyFresh VSP leverages modern suction technology to demonstrate freshness consumers can see and feel.

BENEFITS

- Conforms to irregular shapes without tooling
- Dust-free, shock-resistance reduces damage
- Food safe and nearly mold proof

SIMPLYFRESH ADVANTAGES

- Adheres to all standard substrates
- Works with most sealing equipment
- Offers superior transparency clarity

OPTIONS

- Microwave-safe
- High- and low-barrier
- Tray or semi-rigid skin

Industrial Applications include corrosion-resistance for auto/aircraft parts, and anti-static protection for electronics.

PERFECT-FIT, PRODUCTION READY

Flexible packaging for partners looking for stand-out presentation, lasting protection, and practical-handling solutions. Helping to meet industry demand for fresh, convenient, and sustainable Vacuum Skin Packaging.
